

Dear residents and representatives,

Boneham is again returning to some normalcy after our recent outbreak. We are currently have no residents with active COVID cases on site.

We still have a reasonable number of staff away with COVID or as close contacts however so for the moment we are leaving visiting restrictions at the current 2 nominated visitors per resident. As always, special circumstances can be discussed with our Director of Care or Clinical Nurse. We will review this again early next week and update our advice at that point.

Please remember to bring proof of a RAT test with you when you visit and remember that an N95 mask must be worn at all times when on site. Visits are restricted to the residents room, an outdoor space or our on site café area.

This Sunday is aged care employees day nationally and we take a moment to salute our team members. They have managed to get us all through several COVID outbreaks and receive praise from every visiting professional that we work with, including Australian Defence Force support teams. They care for our residents daily and it is important that we care for them and express our gratitude.

We thank every one of our team members and encourage you to do the same when you visit or through comments on our Facebook page. Sometimes the best reward is a simple thanks.

Please stay safe on the roads over the coming wet weekend and we remain grateful for the continued support of our community.

Kind Regards

Michael Filsell  
Chief Executive Officer
