

Dear residents and representatives

We regret to advise that due to a recent spike in COVID positive cases amongst our staff group and in recent visitors, we have taken the decision this morning to require all visitors and staff to wear surgical masks whilst on the premises.

Fortunately, we do not have any positive cases amongst residents as yet.

This measure will be reviewed again in 7 days and an update provided next week.

Please also remember that all visitors must RAT test negative prior to entering Boneham as an added precaution. RAT tests remain freely available at our reception.

We thank you for your compliance with these requirements which are in the best interests of resident safety as we navigate another pre-winter COVID spike.

Regards

Michael Filsell
Chief Executive Officer
