

Dear Residents and Representatives,

Boneham is aware of an increasing number of gastroenteritis cases within our local community and are concerned due to the potential impact on vulnerable residents within Boneham.

As such we are asking potential visitors to avoid visiting if you are symptomatic or feeling unwell.

If you have been unwell with gastroenteritis, it is vital that you do not visit for 48 hours after your your last symptom (diarrhoea or vomiting). If someone in your household has been unwell, please do not visit for 48 hours after their last symptom.

Handwashing remains one of the best forms of defence against infection, including gastroenteritis, and we would appreciate visitors being particularly vigilant in maintaining hand hygiene.

COVID testing on entry is still in place, but other viruses are avoided by strong community vigilance and transmission prevention.

We thank you for your ongoing support and assistance with the above.

Kind Regards

Michael Filsell
Chief Executive Officer
